DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims **1-14, 27-30**, drawn to the use of various cost categories to determine IT budgets, classified in class 705, subclass 400.
 - II. Claims **15-26**, drawn to allocating cost categories corresponding to IT budget , classified in class 705, subclass 8.

The inventions are distinct, each from the other because of the following reasons:

1. Inventions I, and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as using cost categories to determine IT budgets. Invention II has separate utility such as assigning cost categories for IT budgets. See MPEP § 806.05(d).
2. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
